"We were extremely fortunate to have been referred to Dahl by another happy client...we have seen extraordinary growth in our investments due in no short terms to the valued advice we received.

It is the security we feel we have attained and the knowledge that our investments, whilst returning an excellent dividend, are in a secure and well managed portfolio handled by Dahl. We look forward to our continuing association with LiveNow Financial Planning."

Max & Sally Scott

"Confidence! Security! These are the words that come to mind when describing my experience of dealing with Dahl Drew over many years. I have had no hesitation in recommending him to friends and acquaintances."

Merran Dobson

"We met Dahl about 4 years ago. After Chris had a heart attack we didn't think we would be able to keep our investments. But now, 18 months later, with Dahl's help, our investments have doubled, our super is growing and we will be able to retire when we'd planned to.

If we have a question, we just email or ring Dahl and he will provide us with an answer or explanation. He always takes the time to explain everything."

Deborah and Chris Bonnard

"In regard to our personal insurances, superannuation and investment ideas, Dahl has always offered us exactly what we were looking for at the right time. He has been willing and able to help us on any financial matter and prepared to explain the details fully. We will continue our professional relationship with Dahl for many years to come."

Alan and Peggy Boyce

"I have had dealings with some financial planners in the past that have been neither empowering nor beneficial. Dahl, however, has shown me that there are some who have a genuine interest in the individual. He is prepared to listen to what you want, and more importantly to guide you towards the outcomes that you have discussed."
